

Senior Product Designer with 5+ years of experience designing enterprise SaaS platforms, AI-powered products, and digital manufacturing solutions. Experienced in leading end-to-end product design from discovery and UX research to design systems, high-fidelity interfaces, and front-end implementation.

Specialized in Manufacturing Execution Systems (MES), production monitoring dashboards, AI copilots, workflow automation, and B2B enterprise applications. Passionate about simplifying complex workflows into scalable, data-driven user experiences.

Work Experience

Binary Waves Solutions

Senior UX/UI & Product Designer

Oct 2024 – Present

- **Manufacturing Execution Platform (FactoryNex):** Led end-to-end UX for enterprise Manufacturing Execution System (MES) modules including Production Monitoring, Quality Management, Maintenance, Inventory, Procurement, and Machine Dashboards, enabling real-time operational visibility across factory environments.
- **AI-Powered Manufacturing Insights:** Designed AI-assisted dashboards and intelligent workflows that transformed production data into actionable insights, helping manufacturing teams improve decision-making, monitor KPIs, and streamline day-to-day operations.
- **Enterprise Product Problem Solving:** Solved complex workflow challenges across production, procurement, costing, finance, inventory, and quality management by translating stakeholder requirements into intuitive, scalable user experiences that reduced operational complexity.
- **Design Systems & Cross-Functional Collaboration:** Established scalable design systems and reusable UI components while collaborating closely with product managers, engineers, QA teams, and business stakeholders to ensure design consistency and faster product delivery.
- **User Research & Product Discovery:** Facilitated stakeholder workshops, user interviews, workflow analysis, and usability testing to uncover operational pain points, validate design decisions, and improve overall user adoption across enterprise products.
- **AI-Driven Design Workflow:** Leveraged AI-powered design tools including ChatGPT, Claude, Figma AI, Cursor, and modern prototyping workflows to accelerate ideation, improve design quality, and shorten design-to-development cycles.

SWAG TECH SOLUTIONS

UX/UI Designer

Chennai (Sep 2021 – Oct 2024)

- **Mobile Product Transformation:** Led the redesign of flagship mobile and web applications, improving user engagement by 25% and increasing overall customer satisfaction by 15% through user-centered design principles.
- **Design System Modernization:** Created scalable design systems, reusable UI components, and standardized design guidelines that improved design consistency and streamlined collaboration between design and engineering teams.
- **User Research & Product Optimization:** Conducted user interviews, usability testing, heuristic evaluations, and competitor analysis to uncover usability issues and translate research findings into measurable product improvements.
- **Developer Collaboration & Design Delivery:** Worked closely with engineering teams throughout implementation, ensuring design quality, responsive experiences, accessibility, and accurate translation of product requirements into production.
- **Enterprise Product Thinking:** Collaborated with cross-functional teams to balance business objectives, user needs, and technical constraints while delivering intuitive digital experiences across web and mobile platforms.
- **Rapid Prototyping & Validation:** Developed interactive prototypes and user flows in Figma, enabling faster stakeholder alignment, reducing design iterations, and improving product delivery speed.
- **Continuous UX Improvement:** Applied iterative design methodologies and data-driven decision-making to improve task completion rates, usability, and overall customer experience across multiple products.

skills

AI Workflow and handoff

- Vibe Coding • Claude Code • Claude Terminal
- Figma MCP Integration • Git lab

Strategic Design

- User-Centered Design • Interaction Design • Prototyping • High/Low Fidelity Design • UX Principle • B2B/B2C • Design Thinking
- Design Systems

Research & Audit

- User Interviews • Information Architecture • Wireframes • AB Testing • User Journey
- Usability Testing • User Flows • CRO Report

Visual design

- Typography • Visual Guidelines • Layout Design • Hierarchy Design • Iconography
- Branding • WCAG Guideline

Tools

- Figma • Lovable • Framer • Cursor • Gen AI • Perplexity • Claude • Maze • Zapier • GPTs
- Framer • Nano Banana • Mix Panel

Collaborations

- Multi-Disciplinary Teams • Collaborating with Product Managers/Developer • Team Building • Cross-disciplinary teamwork
- Strategic Decision Making • Team Management

Education & Certification

Karunya institute of technology and science

Engineering

Bachelor of Science in Agriculture

Coimbatore | Tamil Nadu | June 2017 - April 2021

GUVI (IIT-M and Google Partner)

UI/UX Designer

Credential ID :QjW71137xE27X697Pm

Power BI - Build this UX/UI Designed
